

THERE'S STILL TIME TO

STOP

"EARNED

SETTLEMENT"

WILL YOU STAND UP FOR YOUR COMMUNITY?

Dear

The Home Secretary's earned settlement plans risk locking millions of people into years of insecurity and hardship. They penalise the most vulnerable members of our communities and have the potential to create a workforce crisis in social care and the NHS. They will also harm integration and fuel divisiveness. As your constituent, I want to tell you about my concerns.

Will you write to the Home Secretary and ask her to **stop earned settlement** and instead focus on policies that will make our communities stronger?
