

Reporting for care leavers checklist

December 2024

This is a checklist for supporting young people with reporting conditions. Please use this checklist alongside our resource on reporting for care leavers.

A plan should be in place for every reporting appointment, including what to do if the young person is **detained**, which should be discussed with them in advance. Things to consider include:

- ☐ Does the young person **understand** the potential consequences if they do not report when asked to do so?
- ☐ Where a young person is not being accompanied to reporting appointments, can a professional **check in** with them over the phone before and after their appointment time
- ☐ Does the young person have an immigration lawyer?
- ☐ What are their contact details?
- ☐ See Right to Remain page for support services at different detention centres, and information on how to contact and locate the young person.

If someone is detained, they may have their phone taken from them. When a young person is reporting, ensure they have with them:

- ☐ A written list of emergency contact details, including their lawyer if they have one, and the number Bail for Immigration Detainees: 02074569750
- ☐ A photocopy of their paperwork from the Home Office and their lawyer.
- ☐ Any medication they are taking, and a copy of prescriptions.
